PROFESSIONAL SUMMARY

Full Stack Developer and Software Engineer candidate with hands-on experience building applications using Python, JavaScript, React.js, FastAPI, RESTful APIs, and PostgreSQL. Experienced in developing responsive frontend interfaces, backend services, database-driven applications, JWT authentication, role-based access control, and real-time communication using WebSockets. Built projects involving full-stack workflows, AI-based content moderation, NLP, and computer vision. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, debugging, and software development lifecycle practices, with a focus on building maintainable and reliable software solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, SQL, JavaScript
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Development, State Management
- **Backend Development & APIs:** FastAPI, RESTful APIs, Asynchronous Programming, JWT Authentication, Role-Based Access Control
- **Databases:** PostgreSQL, SQL, Database Schema Design, Relational Databases
- **AI & Intelligent Applications:** Hugging Face Transformers, Natural Language Processing (NLP), Computer Vision, CNNs, AI-Based Content Moderation
- **Software Engineering:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Systematic Debugging, Troubleshooting
- **Tools:** Git, GitHub

PROJECTS

BookMyShift — Full-Stack Shift Marketplace

React.js · FastAPI · Python · PostgreSQL · RESTful APIs · JWT · WebSockets

- Engineered a full-stack shift marketplace using React.js, FastAPI, Python, and PostgreSQL to support job posting, search, applications, hiring, shift management, and bookings.
- Implemented JWT authentication and role-based access control (RBAC) across Client, Worker, and Admin roles to secure application resources and user workflows.
- Developed an Admin Dashboard and integrated FastAPI REST APIs with PostgreSQL for user management, shift operations, input validation, and structured data handling.
- Integrated WebSocket-based real-time chat and notifications, along with profile previews and bidirectional ratings and reviews, to support interactive application workflows.

Suraksha-Astra — AI-Based Cyber Safety System

Python · FastAPI · JavaScript · Hugging Face Transformers · Computer Vision · CNNs · NLP

- Architected a real-time AI-based content moderation system using NLP Transformers and CNN-based Computer Vision to analyze potentially harmful text and visual content.
- Implemented Hugging Face Transformer-based NLP analysis to identify toxic and abusive content.
- Developed a 0–100 weighted risk-scoring engine to classify content into SAFE, MONITOR, SUSPICIOUS, and HIGH RISK categories.
- Developed asynchronous FastAPI endpoints with automated ALLOW, LIMIT, and BLOCK enforcement through a moderation dashboard.ACHIEVEMENTS & HACKATHONS

ACHIEVEMENTS & HACKATHONS

BNP Paribas INNOVERSITÉ 2026 – 24-Hour Hackathon **Bengaluru | Sep 2026**

Collaborated on Project Vigilance, an AI-based AML system featuring risk analysis, network diagrams, alerts, investigation workflows, and PDF report generation.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern | Unified Mentor **Jun 2025 – Sep 2025**

- Developed responsive frontend interfaces and backend functionality following software development lifecycle (SDLC) and software engineering practices.
- Integrated relational databases with application workflows to support reliable backend data processing.
- Identified and resolved application bottlenecks through systematic debugging and troubleshooting.
- Supported full-stack application workflows across frontend, backend, and database components.

EDUCATION

B.Tech, Information Science & Technology **2027| CGPA: 8.29**
Presidency University, Bengaluru

Pre-University Course (PUC) **2023| 84.5%**
MRM PU College, Haveri

Matriculation (SSLC) **2021| 96.16%**
Lions English Medium School, Haveri

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) — Generative AI Professional
- Oracle Cloud Infrastructure (OCI) — AI Foundations Associate
- Oracle AI Cloud Database Services — Certified Professional
- Data Analytics Job Simulation — Deloitte (Forage)
- Data Visualization: Empowering Business with Effective Insights — Tata
- Software Creation: Version Control, Debugging & Object Design — Coursera
