PROFESSIONAL SUMMARY

Information Science and Technology undergraduate targeting Full-Stack Developer, Software Engineer, and AI/ML Engineer roles, with hands-on expertise in full-stack architecture, RESTful API development, database optimization, and applied AI systems. Experienced in building end-to-end applications using React.js, FastAPI, Flask, Python, and PostgreSQL/MySQL, with multi-modal deep learning, Computer Vision (CNNs), and Hugging Face Transformers. Strong foundation in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, and SDLC workflows. Focused on delivering production-ready, resource-efficient systems with strong debugging, low latency, and reliability.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL, JavaScript, Bash

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, State Management, Responsive Design

Backend & APIs: FastAPI, Flask, RESTful APIs, Asynchronous Programming, JWT Authentication, Microservices Architecture

AI, Computer Vision & NLP: Hugging Face Transformers, Computer Vision (CNNs), OpenCV, Deep Learning, Model Inference, Risk Classification

Databases & Cloud: PostgreSQL, MySQL, TiDB Cloud, Schema Normalization, Database Indexing, Query Optimization

Software Engineering: DSA, OOP, SDLC, Unit Testing, Systematic Debugging, Git/GitHub, CI/CD

PROJECTS

BookMyShift

React.js, FastAPI, Python, PostgreSQL, RESTful APIs, JWT

- Engineered a full-stack shift management platform supporting job posting, search, filtering, applications, and shift workflows.
- Implemented JWT authentication and RBAC across worker/employer workflows, including eligibility validation, shift slots, and Spot Pay.
- Built an end-to-end application lifecycle covering submissions, approvals/rejections, shift assignment, attendance, payments, and order management.
- Integrated real-time chat, notifications, ratings and reviews, profile management, and shift history.
- Developed asynchronous RESTful APIs with FastAPI and a responsive React.js frontend backed by PostgreSQL.

ExpenseHub — Enterprise Expense Management Platform

Python, Flask, MySQL, TiDB Cloud, HTML, CSS, JavaScript, Git, Render

- Engineered and deployed a full-stack expense platform with RBAC and Employee, Manager, Finance, and Super Admin workflows.
- Implemented multi-stage approval workflows, expense policies, authentication, audit logging, and notifications.
- Designed normalized MySQL/TiDB schemas and interactive analytics dashboards for expense tracking and reporting.
- Automated deployment through Render and maintained version-controlled workflows using Git/GitHub.

Suraksha-Astra — AI-Based Cyber Safety & Content Moderation System

Python, FastAPI, JavaScript, Tailwind CSS, Hugging Face Transformers, Computer Vision, RESTful APIs

- Engineered a real-time cyber safety platform detecting toxic, abusive, and NSFW content using multi-modal AI analysis.
- Implemented NLP Transformers and CNN-based Computer Vision with behavioral anomaly detection for threat analysis.
- Developed a 0–100 weighted risk-scoring engine with SAFE, MONITOR, SUSPICIOUS, and HIGH RISK classifications.
- Designed automated ALLOW/LIMIT/BLOCK enforcement with asynchronous FastAPI endpoints and a moderation dashboard.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern | Unified Mentor

Jun 2025 – Sep 2025

- Engineered responsive frontend interfaces and server-side backend logic following modern SDLC practices.
- Integrated relational databases and resolved functional bottlenecks through systematic debugging.

EDUCATION

B.Tech, Information Science & Technology

2027| CGPA: 8.29

Presidency University, Bengaluru

Pre-University Course (PUC)

2023| 84.5%

MRM PU College, Haveri

Matriculation (SSLC)

2021| 96.16%

Lions English Medium School, Haveri

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) — Generative AI Professional
- Oracle Cloud Infrastructure (OCI) — AI Foundations Associate
- Oracle AI Cloud Database Services — Certified Professional
- Data Analytics Job Simulation — Deloitte (Forage)
- Data Visualization: Empowering Business with Effective Insights — Tata
- Software Creation: Version Control, Debugging & Object Design — Coursera
